

Briefing 2024 at Northcroft

Good Evening

Firstly well done and a good day on the water if a little bit chilly.

We have heard that there are some concerns regarding conditions for tomorrow.

From the race perspective there is a strong flow but not beyond paddling.

We can't assess your individual crews and as coaches and individuals you need to be happy that you or your crews are competent for the conditions. As it currently stands, we have assessed the course and are happy for the race to continue.

We are dynamically assessing the course and the safety crew have been out on the course this evening with the stages umpire to review.

We have looked at Woolhampton, Tyle Mill and Fobney, and County will be inspected again at 05:30 tomorrow morning. The below mitigation elements have been added:

Woolhampton: no short portage available, option of get in before road bridge, if still concerned crews are welcome to portage across the road.

Tyle Mill: flow rates are at an acceptable level, paddlers remain welcome to portage beyond the gate along the course.

Fobney: usual portage is limited but still useable. Option for a different get in available by going through the works and along the tow path for approximately 200 yards where there is a nice get in on the inside of the bend.

County and Oracle; flow is high but is consistent. Will be reviewed early morning. Option to portage County and Oracle remain as available as per normal race rules. Indeed, crews may portage all the way to the finish if they so choose.

Team leaders and support are of course welcome to add additional mitigations should they feel appropriate.

We will watch what happens overnight and adjust accordingly.

The following pages contain:

List by Boat Number

List by Start Time

List by Start Time, showing names and elapsed time so far.

Because of constantly changing river conditions, please could crews who have specific allocated times (those on the last page) arrive 30 minutes before their allocated time. Start times may need to be further compressed.
